

# Globees set to be Christmas success

A TATSFIELD entrepreneur has been revelling in his success after his invention went global.

David Sinclair, of Paynesfield Road, was struck with the idea of putting city maps onto globes while in bed in 2008.

After launching in New York in August last year, Globees are set to take the UK by storm this Christmas, with several big retailers signed up to sell them.

"The idea came to me when I woke up in the middle of the night and I couldn't believe nobody had thought of it before," Mr Sinclair said.

"In spite of the recession, it's gone very well, although we're working 25/8, forget 24/7."

**MADE IT:** David Sinclair, inventor of Globees

Mr Sinclair gave some advice to other budding entrepreneurs.

"You need to have total belief in what you're doing and you just have to work all the hours under the sun. Don't forget that everyone gets setbacks but you can't let them get to you," he said.
