

# capital christmas

Decorations with a London theme

**W**e have the best capital city in the world (oh yes we do), so we thought it would be fun to round up some brilliant London-themed décor for your Christmas home. It's just an excuse really, any time of year will do to show off London's fair city!

Starting with your Christmas dining table, Mapkins by Drift Living display a modern map of the streets of London and are sure to serve up fond memories over Christmas lunch.

Enchanting - and brand new - are Globee's beautifully drawn maps of London in the round presented as globes, money boxes and lamps. These last are guaranteed to set the whole world alight!

Globee

On the theme of travel, both John Lewis and Debenhams have fabulous transport-themed cushions - see Ben de Lisi's London bus in bright red for Debenhams which caught our hearts. We were similarly captivated by the London Routemaster tree lights from the London Transport Museum. From them also come pairs of great bookends - all hail the London taxi pictured here. Have a capital Christmas! 🇬🇧
